

Esthetic mucogingival surgery around teeth:
treatment of gingival recession and vertical bony defects

Esthetic mucogingival surgery around implants:
treatment and prevention of esthetic failure around implants

before and after implants

Prof. Giovanni Zucchelli DDS PhD
Dr. Claudio Mazzotti
Dott.ssa Martina Stefanini

BOLOGNA
25 - 28 June 2018

LOCATION

STARHOTEL EXCELSIOR - BOLOGNA
Viale Pietro Pietramellara - Tel. 051 246178
STUDIO PROF. GIOVANNI ZUCCHELLI
Viale XII Giugno, 26 - Bologna

COURSE FEE

€ 2.200 + IVA (22%) - € 2.684

Included in the price:

- training materia
- coffee break and lunch for all the duration of the course
- surgical instruments and animal model for hands-on
- end of course dinner
- possible support for transfer from/to airport/hotel
- tour of Ferrari Museum in Maranello or tour of Ducati Museum and Factory
- Possible support for Visa

No included in the price:

- cooking course
- possible tour of Bologna
- F1 pit stop simulator in Maranello

Information and inscription

s u r g e r y

Prof. Giovanni ZUCHELLI DDS PhD

- Graduated in 1988 from the university of Bologna, Italy with a degree in dentistry.
- He was awarded PhD in Medical Biotechnology in 1999 from the University of Bologna, Italy.
- Professor of periodontology at the University of Bologna, Italy from 2000
- Received many awards for clinical research in periodontology in Europe and the United States.

In 2006 and 2008 is the winner of The AAP

Foundation-E Bud Tarrson Research Award in Oral Plastic Surgery

- Active member of EAED (European Academy of Esthetic Dentistry), SIdP (Italian Society of Periodontology) and SIO (Italian Society of Osteointegration); member of the European Federation of Periodontology
- Associate Editor of the International Journal of Esthetic Dentistry and Member of the editorial board the International Journal of Periodontics and Restorative Dentistry.
- Peer reviewer in most ranked Periodontal Journals
- Author of 100 publications in Pubmed
- Innovator of several soft tissue plastic surgical techniques
- Speaker at major international conferences on periodontology
- Has taught theoretical and practical (with live Surgery) courses in all countries.
- Co-author of two illustrated textbooks on periodontal plastic surgery (Ed. Martina)
- Co-author of chapter "Mucogingival Therapy-Periodontal Plastic Surgery" in Clinical Periodontology and Implant Dentistry (Lindhe J, Lang NP, Karring T [eds], Wiley-Blackwell
- Author of the book title, 'Mucogingival Esthetic Surgery' from Quintessence Publishing.

Day 1 and 2

Esthetic mucogingival surgery around teeth: treatment of gingival recession and vertical bony defects

Day 1 9,00 - 18.00

Diagnosis and prognosis of root coverage

Combined restorative-periodontal treatment for the aesthetic goal

Surgical treatment of single type recession defect

- Coronally advanced flap
- Connective tissue graft harvesting techniques
- Bilaminar techniques

Surgical treatment of multiple recession defect in the upper jaw

- Coronally advanced flap
- Bilaminar techniques

Treatment of cervical abrasion defects associated with gingival recession: selection of the most appropriate treatment approach

The use of emdogain in mucogingival surgery

Live surgery: treatment of gingival recession

Day 2 9,00 - 18.00

The use of substitutes of the connective tissue graft in mucogingival surgery

Surgical treatment of multiple recession defect in the lower jaw

- Coronally advanced flap
- Bilaminar techniques

Hands on pig jaw : Split thickness papilla elevation

Coronally advanced flap

Connective tissue graft harvesting procedure

Bilaminar technique

Live surgery: treatment of gingival recession

Biology of Bone: alveolar vs bundle

Implant positioning

Treatment of gingival recessions around implants

Coverage of soft tissue dehiscence/dis-alignment around implants

Day 3 and 4

Esthetic mucogingival surgery around implants: treatment and prevention of esthetic failure around implants

Day 3 9,00 - 18.00

Increase in soft tissue thickness during delayed implant installation with immediate loading

Soft tissue augmentation procedure before implant installation or prosthetic rehabilitation: the "connective tissue platform technique".

Increase in soft tissue thickness during immediate post-extraction implant with immediate loading

A soft tissue approach for implant placement in area of tooth extraction for severe periodontal disease

Video of all surgical procedures

Hands on pig jaw : Implant installation and soft tissue augmentation

Live surgery: implant installation with soft tissue augmentation

Day 4 9,00 - 14.00

Keratinized tissue height and soft tissue thickness in the prevention of gingival recession around implants

Connective tissue graft vs Connective tissue substitute in the increase of the keratinized tissue around implants

Increase of keratinized tissue height before implant installation

Increase of keratinized tissue after implant installation

Increase in soft tissue thickness during implant installation

The "sugmarginal connective tissue graft technique"

Video of the surgical procedures
