

Esthetic mucogingival surgery around teeth:
treatment of gingival recession and vertical bony defects

Esthetic mucogingival surgery around implants:
treatment and prevention of esthetic failure around implants

before and after implants

Prof. Giovanni Zucchelli DDS PhD
Dr. Claudio Mazzotti
Dott.ssa Martina Stefanini

BOLOGNA
10 - 11 - 12 - 13 Luglio 2019

LOCATION
UNAWAY HOTELS BOLOGNA FIERA
Piazza della Costituzione 1 - 40128 BOLOGNA
Tel. +39 051 41666

PAYMENT METHODS
BANK TRANSFER
IBAN: IT 20 Q 06160 72320 00000000 4561
BIC: CRFIIT3F

Included in the price:

- training materia
- coffee break and lunch for all the duration of the course
- surgical instruments and animal model for hands-on
- end of course dinner

Information and inscription

ZUCCHELLI
e s t h e t i c
m u c o g i n g i v a l
s u r g e r y

Prof. Giovanni ZUCHELLI DDS PhD

- Graduated in 1988 from the university of Bologna, Italy with a degree in dentistry.
- He was awarded PhD in Medical Biotechnology in 1999 from the University of Bologna, Italy.
- Professor of periodontology at the University of Bologna, Italy from 2000
- Received many awards for clinical research in periodontology in Europe and the United States.

In 2006 and 2008 is the winner of The AAP

Foundation-E Bud Tarrson Research Award in Oral Plastic Surgery

- Active member of EAED (European Academy of Esthetic Dentistry), SIdP (Italian Society of Periodontology) and SIO (Italian Society of Osteointegration); member of the European Federation of Periodontology
- Associate Editor of the International Journal of Esthetic Dentistry and Member of the editorial board the International Journal of Periodontics and Restorative Dentistry.
- Peer reviewer in most ranked Periodontal Journals
- Author of 100 publications in Pubmed
- Innovator of several soft tissue plastic surgical techniques
- Speaker at major international conferences on periodontology
- Has taught theoretical and practical (with live Surgery) courses in all countries.
- Co-author of two illustrated textbooks on periodontal plastic surgery (Ed. Martina)
- Co-author of chapter "Mucogingival Therapy-Periodontal Plastic Surgery" in Clinical Periodontology and Implant Dentistry (Lindhe J, Lang NP, Karring T [eds], Wiley-Blackwell)
- Author of the book title, 'Mucogingival Esthetic Surgery' from Quintessence Publishing.

Day 1 9:00 - 18:00

10 LUGLIO

Esthetic mucogingival surgery around teeth: treatment of gingival recession

Diagnosis and prognosis of root coverage
Combined restorative-periodontal treatment for the aesthetic goal
Surgical treatment of single type recession defect

- Coronally advanced flap
- Connective tissue graft harvesting techniques
- Bilaminar techniques

Surgical treatment of multiple recession defect in the upper jaw

- Coronally advanced flap
- Bilaminar techniques

Treatment of cervicale abrasion defects associated with gingival recession: selection of the most appropriate treatment approach.

Connective

The use of emdogain in mucogingival surgery

The use of substitute of the connective tissue graft in mucogingival surgery

Surgical treatment of multiple recession defect in the lower jaw

- Coronally advanced flap
- Bilaminar techniques

Day 3 9:00 - 18:00

12 LUGLIO

Live surgery and esthetic treatment of vertical bone defects

- Live 1 - Soft tissue around teeth
- Live 2 - Soft tissue around teeth
- Live 3 - Soft tissue around implant

Connective tissue wall technique in the treatment of vertical bone defect in the esthetic area.

Day 2 9:00 - 18:00

11 LUGLIO

Esthetic mucogingival surgery around implants: treatment and prevention of esthetic failure around implants

Biology of bone: alveolar vs Bund le

Implant positioning

Treatment of gingival recession around implants

Coverage of soft tissue dehiscence/dis-alignment around implants

Increase in soft tissue thickness during delayed implant installation with immediate loading

Soft tissue augmentation procedure before implant installation or prosthetic rehabilitation: the "connective tissue platform technique"

Increase in soft tissue thickness during immediate post-extraction implant with immediate loading

A soft tissue approach for implant placement in area of tooth extraction for severe periodontal disease

Video of all surgical procedures

Day 4 9:00 - 14:00/15:00

13 LUGLIO

Speakers of the day

Dr. Claudio Mazzotti

Dott.ssa Martina Stefanini

Keratinized tissue around implants + hands - on

Keratinized tissue height and soft tissue thickness in the prevention of gingival recession around implants.

Connective tissue graft vs connective tissue substitute in the increase of the keratinized tissue around implants.

Increase of keratinized tissue height before implant installation.

Increase of keratinized tissue after implant installation.

Increase in soft tissue thickness during implant installation.

The "submarginal connective tissue graft technique".

Video of the surgical procedures.

Hands On pig jaw.
